Inclusive Education: Approaches, Scope and Content

Zhou Ji

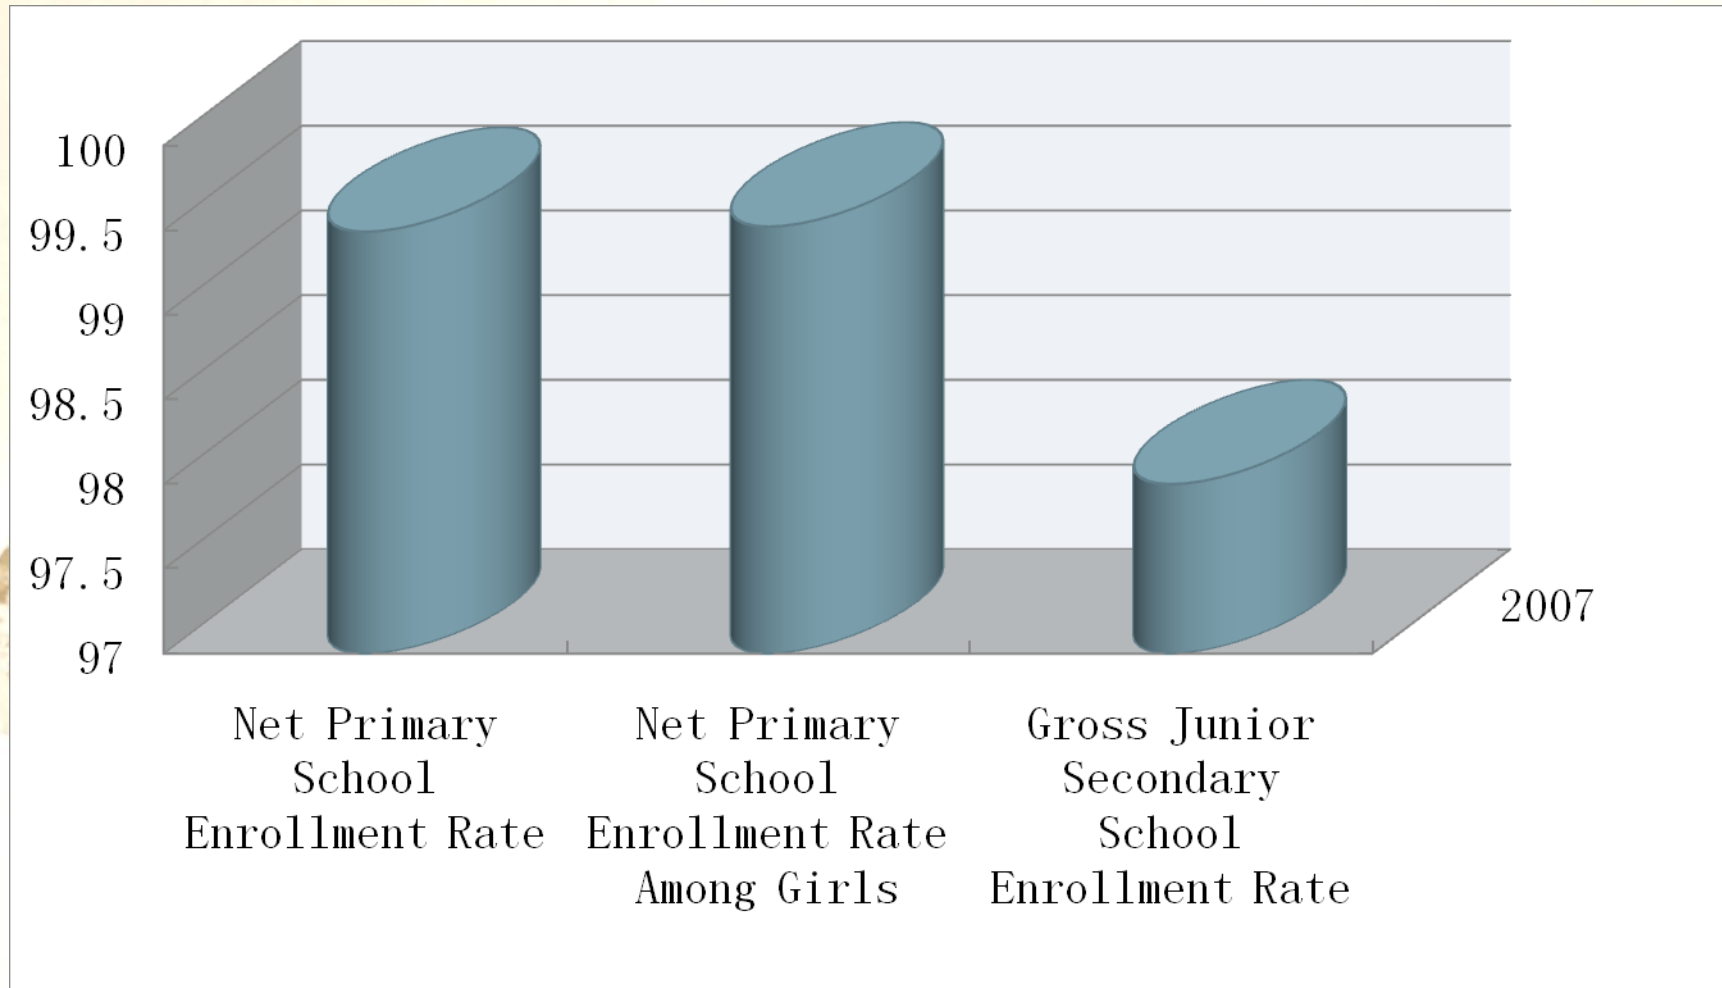

Minister of Education, P. R. China

November 25, 2008

Pattern of Inclusive Education

I. Ensuring Every Citizen's Right to Education

II. Success of Inclusive Education Lies on Equality

Equality in education is a cornerstone for social justice and the core of inclusive education.

1. Promoting equality in education by boosting education on a scientific footing. ````

2. Stepping up national policies in favor of citizens in general and the disadvantaged groups in particular, with not a single child left out.

3. Improving administration to ensure equality in education.

To advance equality in education is not only a basic education policy but also a basic requirement for running education to the satisfaction of the populace.

III. Promoting Character Education and Raising Education Quality

- **To raise education quality is the fundamental way to make inclusive education work.**

- **Quality teachers hold the key to quality education.**

Education is the foundation for building a harmonious world

Thank you!
